To our residents,

In an effort to be in compliance with the advice and related liability limits of our insurance policy, there are required changes to the work that the HOA staff is authorized to perform for individual homeowners.

The following work **remains** permissible under our insurance/liability provisions.

Bathroom: Toilet Bowls, filter valves, tank handles, flapper assembly, Vanity, medicine cabinets, faucets, stems & seats, shower cartridges, shower heads, drain pipes under the sink, supply hoses, tub drains, trip levers, grout floors, grout tubs & showers, floor molding, grab bars, shower doors, towel bars, and angle stops.

Kitchen: Supply hose, angle stops, faucets, stems & seats, and ice makers.

General: Interior doors, closet door repairs, replacing closet doors, sheet rock repairs, floor molding, front doors, storm doors, door bells, door bell transformers, door knobs, curtain rods, pictures, window saddles, dryer vent cleaning, air filters, and sliding doors.

Exterior: Replacing hose bibs- which is usually a Condo generated task.

In general, the HOA staff will **no longer** be authorized to perform electrical work such as: any wiring or appliance repair and/or installation, gas line or gas operated appliance installation and/or repair, major plumbing work related to significant home improvements and/or repairs.

Keep in mind that the HOA staff is still authorized to respond to emergencies requiring immediate response and a “safety shut down.” This situation is disappointing to our staff and the HOA Board. However, in order to maintain the required coverage, these changes are unfortunately necessary.
